

In the Claims:

Please cancel claims 1-48. Please add new claim 49.

--49. (New) An isolated nucleic acid, comprising, in the 5' to 3' direction:

a first nucleotide sequence comprising SEQ ID NO:1, or the complement thereof;

a second nucleotide sequence having at least 95% identity to SEQ ID NO:2, or the complement thereof;

a third nucleotide sequence selected from the group consisting of a nucleotide sequence having at least 70% identity to SEQ ID NO:9, the complement thereof, a nucleotide sequence that encodes a polypeptide having at least 75% identity to SEQ ID NO:10, and the complement thereof;

a fourth nucleotide sequence selected from the group consisting of a nucleotide sequence having at least 70% identity to SEQ ID NO:11, the complement thereof, a nucleotide sequence that encodes a polypeptide having at least 79% identity to SEQ ID NO:12, and the complement thereof;

a fifth nucleotide sequence selected from the group consisting of a nucleotide sequence having at least 70% identity to SEQ ID NO:15, the complement thereof, a nucleotide sequence that encodes a polypeptide having at least 90% identity to SEQ ID NO:16, and the complement thereof;

a sixth nucleotide sequence selected from the group consisting of a nucleotide sequence having at least 50% identity to SEQ ID NO:5, the complement thereof, a nucleotide sequence that encodes a polypeptide having at least 30% identity to SEQ ID NO:6, and the complement thereof;

a seventh nucleotide sequence comprising SEQ ID NO:4, or the complement thereof; and

an eighth nucleotide sequence comprising SEQ ID NO:3, or the complement thereof.--
